

Visual Studio kullanarak C++ Programı Yazmak

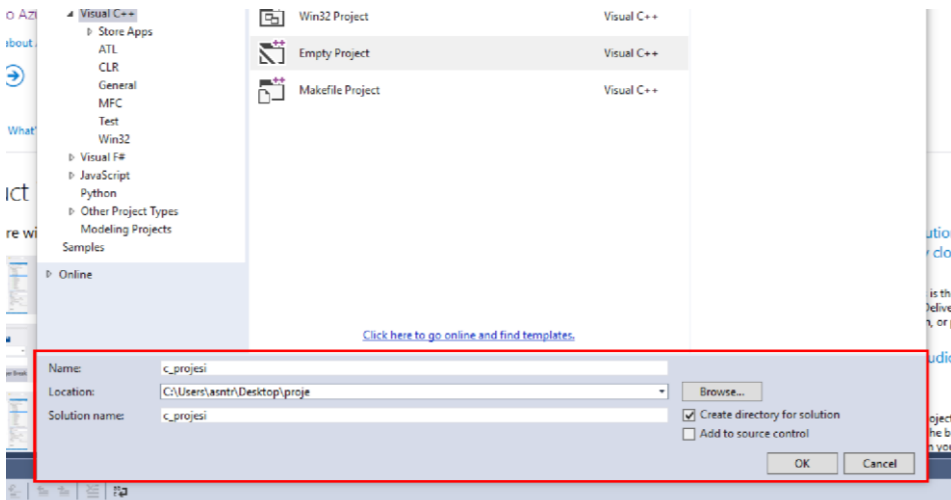

1.

2.

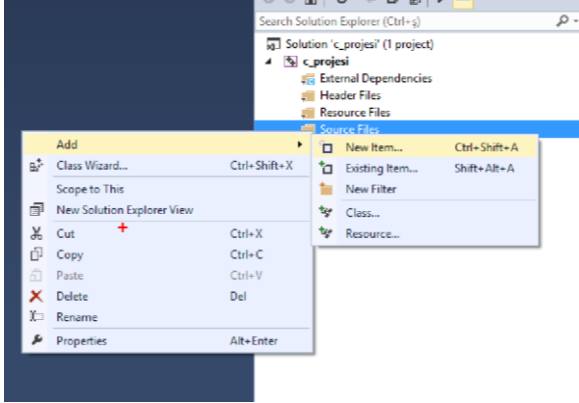

3.

Proje isimlerinizde şöğğ gibi Türkçe karakter kullanmayın.

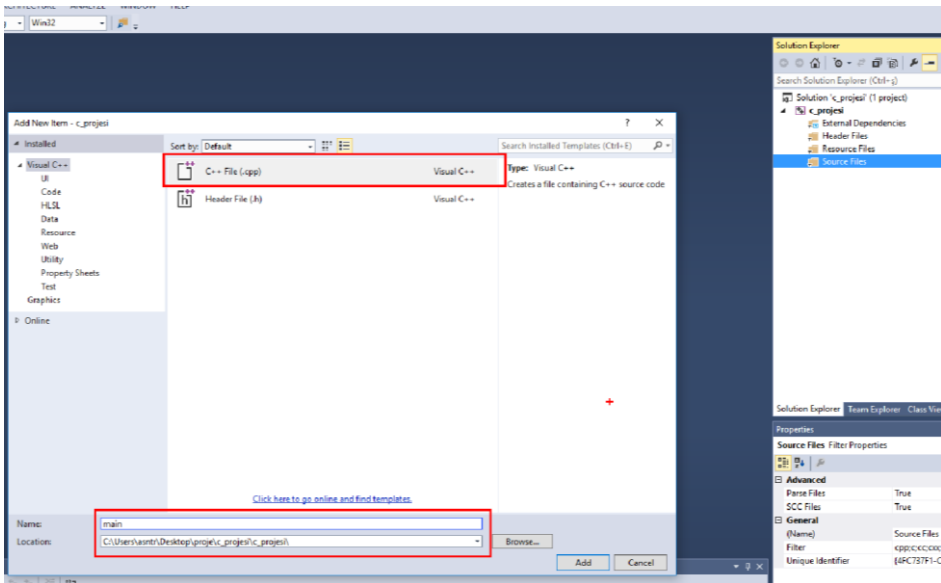

4.

Eğer (resimdeki gibi) sağ taraftaki panel görünmüyorsa Window -> Reset Window Layout menüsü ile programınızın görüntüsünü resetletin.

5.

6.

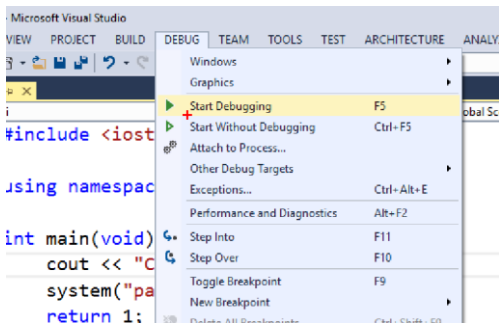

```
#include <iostream>

using namespace std;

int main(void){
    cout << "C++ Programlama" << endl;
    system("pause");
    return 1;
}
```

7.

8.

Not: Programda deęişiklik yaptığınızda sonucunu görmek için derlemeden önce önceki siyah ekranı kapatmayı unutmayın.
